

Swiss precision for excellent audio quality

VOICE TECHNOLOGIES

VT506Video Lavalier Microphone for Videocameras

Moving picture needs the best sound.

The VT506VIDEO is also based on the VT506 and has a matching connector for Video Cameras. Whether it's for Social Media videos like YouTube or Vimeo, reports, Talking-Head interviews, private recordings or as a backup for sound engineers. It is produced with a special molding injection technique and the length of the cable is 5m so that it does not appear in the video.

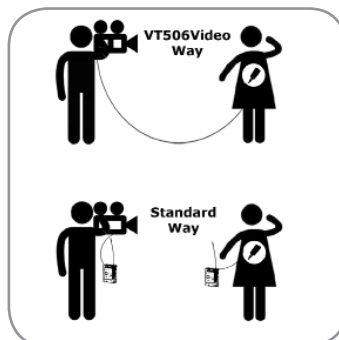

The VT506Video is a high-quality professional microphone with Broadcast quality. It has a rising frequency response to assure speech intelligibility and works brilliant even when used under-clothing. The cable is flexible and has excellent isolation from rubbing noise. The length of the cable is 5 meters so that it does not appear in the video.

The Voice Technologies VT506Video comes comes with a clip and a windscreen in a transparent box which fits in every pocket and which guarantees a secure transportation:

- Clip
- Windscreen

Application area: Social media videos (YouTube, Vimeo), reports, Talking-Head interviews, private recordings or as a Backup for sound engineers
