

QUICK START GUIDE VT DUPLEX CARDIOID – DISTANCE HOLDER

1. The Distance Holder prevents noise through skin contact and can be placed in three different positions. Choose one of the three positions and mount the mic boom to the Distance Holder.

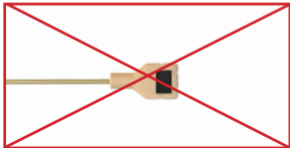

2. Mount the holder on the earpart of the VT-DUPLEX SERIE / VT901MKII Microphone and enjoy trouble-free microphone sound.

QUICK START GUIDE VT DUPLEX CARDIOID – CAPSULE POSITION

SMALL OPENING = **FRONT SIDE**

This side is pointed in the direction of the sound source (user's mouth).

BIG OPENING = **BACK SIDE**

This side is pointed in the opposite direction from the sound source. Do not point this side towards the sound source (user's mouth).
